History of Blue-Point

1925

Blue Point Tool Company was formed

1930

Snap-on Wrench Company and Blue Point Tool Company merged to become Snap-on Tools, Inc.

1940

Superior tools from Snap-on, Inc. Making headlines in the industry

1945

Forged Steel Products Company finally merged into Snap-on Tools, Inc.

Founded in 1925, Blue Point Tool Company was formed in Wisconsin, United States, as a tools manufacturing company. The Blue Point name was derived then from the blue-coloured tip of punches & chisels formed after oil quenching and tempering. This distinguished Blue Point's products from competitors' and Blue Point eventually became a brand synonymous with quality hand tools.

Following the successful introduction of the Blue Point punches and chisels, the management turned to their Milwaukee supplier factory to provide open end wrenches and issued this order: "Forget competition, forget price, forget precedent; just take our order to make the best wrench in the world, and we will sell them regardless of competition and regardless of price." A short time later the factory delivered their first set of eight open end wrenches and guaranteed that it was IMPOSSIBLE - to break the head; to spread the jaws; to bend the handle; to injure them; or, to destroy their everlasting efficiency. That sounded like a pretty wild and extravagant claim, but the sales force set out to sell them on that basis...and sell them they did!

Tool Storage

Getting organized for the job gives you more than you may have realized. You can be sure that tools you need are readily available. The work space gets less messy and you focus better. No more searching of tools all over and replacement of missing tools. Time is spent more productively and work is done more efficiently. End of the day, you feel better and you look forward to your day's work, with your tools.

Professionals have long realized that and they work with pride. And we have been providing the exact tool storage they require to make this possible. Our tool storage are designed with the latest computer-aided design systems and built to last the daily knocks of the work environment they are put into. Our paint and finishing systems deliver the finest, most durable finishes available and our rigorous testing ensures a trouble free lifetime of service.

SOCKETS, RATCHETS & ACCESSORIES

Blue-Point sockets & ratchets are made combining high grade materials with the best manufacturing process available to ensure good performance and fit.

High Grade Materials

Sockets are made with high alloy content steel for a stronger, more durable tool.

Best Industrial Manufacturing Process

In making each socket, we employ the best manufacturing process available, adhering to exact treatment conditions and parameters to give it a good mixture of strength and durability.

Better Socket Design

Our sockets are thin-walled with appropriate broach depth to provide greater access into tight spots and fit better for more applications.

Patented Wrenching System

Flank Drive[®] is also incorporated into our socket design to achieve a higher torque while preventing rounding of fasteners.

High Efficiency

The ratcheting gear in Blue-Point ratchets feature high teeth count for working with a shorter swing arc. This allows jobs to be done in tight spots as well as enhancing work output with lesser swings needed.

We incorporate better design and concept wherever applicable to make a better performing tool. Blue-point sockets & ratchets are tools manufactured to the highest quality.

The first of Blue-Point wrenches were designed to be unbreakable at its head, unable to spread its jaws or bend its handle, and cannot injure them nor destroy their everlasting efficiency. While most of our wrenches have evolved and improved with time, these core philosophies to quality are observed till today in our design.

Our ratcheting wrench uses gears with higher number of teeth so that you need less swings to tighten and loosen a fastener. In short, you work less to get each job done.

We kept the thickness of the jaws to the minimal without losing its required strength. This allows our wrench to reach better into constricted openings for any tightening or loosening task.

Flexible head is also incorporated into some designs to accommodate awkward working angles.

The ends of our wrench are set in an optimal angle so that you can flip it to get the best working angle.

Nickel chrome exterior finishes the wrench for corrosion resistance and a durable tool.

- Dual pawl ratcheting box end yields smooth operation and maximum strength
- 15° offset box head provides extra knuckle clearance
- 4.5° (5° on smaller wrenches) gear engagement means less movement to engage the next gear
- Inch scale laser etched on head face
- Ratcheting box is reversible
- Box end features the FLANK DRIVE® wrenching configuration for greater torque with less applied force
- Tough, durable nickel-chrome finish
- Meets or exceeds strength specifications in ASME B107.6

SCREWDRIVERS & BITS

Blue-Point's screwdrivers give you better grip and higher turning force with tool tip durability to match.

Handles using dual compound are ergonomically shaped to fit your palm for comfort and better grip.

The high strength Molybdenum-Vanadium steel shanks are nickel and chrome plated for toughness and corrosion resistance.

Vapor-blasted tips offer greater screw-tip adherence to prevent the rounding of screws and screwdrivers alike.

Finer details like laser-etching of the size and part numbers are not missed. This ensure permanence with continual usage over time.

We even offer three colours in the same range to facilitate tool identification and differentiation for different work-teams.

Pliers

At Blue-Point, we created a broad range of high performance pliers for most applications today while keeping at a very affordable price.

Like our screwdrivers, we also adopt a dual compound design for the handle to improve gripping comfort and reduce hand fatigue.

The joints are precision machined and located for high leverage thus requiring less effort for every crimping and cutting task.

We even use laser hardening on the cutting edges of our pliers!

Blue-Point pliers are where good quality comes at a good price. And our broad range completes your search for the right tool to the job.

Torque Tools

Our torque wrenches are made in the USA where the best torque products come from.

Each unit is factory calibrated and certified to meet ASME specified accuracy on a torque standard traceable to the National Institute of Standards and Technology.

Designs like the sealed high strength ratchet head keeps out dirt and moisture in the harshest environment giving you a reliable tool that constantly deliver accurate results.

Its internal mechanism is also permanently lubricated during assembly for a trouble free service life.

You can thus be assured of accuracy, reliability and a maintenance-free equipment when getting our torque products.

- Dual scale, calibrated dual direction
- Positive lock with spring loaded pull down lock ring
- Fast, accurate and easy to set
- Easy-to-read laser marked scales
- Most feature quick release buttons which provide good socket retention as well as easy socket removal
- Accuracy: $\pm 3\%$ CW $\pm 4\%$ CCW of indicated value, CW, from 20% to 100% of full scale
- Meets or exceeds ASME B107.14-2004, ISO 6789 standards
- Individually serialized with matching certificate of calibration traceable to N.I.S.T.

- A higher performance wrench than similar ones offered by the competitor
- Blue-point ratchet heads are smaller than competitor
- Blue-point 40 tooth ratchet head vs. the competitor; much less "swing arc"
- Blue-point wrench tubes are smaller diameter at the throat; greater access
- Ratchets are bi-directional
- High durability - survived 50,000 cycle testing in both directions; competitor failed at 12,000 cycles
- Improved calibration performance; Blue-point remained calibrated after 25,000 cycles. Competitors wrench fell out of calibration prior to required 5,000 cycles

- Audible tone indication

Computorq 3 Digital Torque Wrench

- Sleek new design
- 15-degree flex ratcheting head
- Push button socket release head
- Large, easy to read digital display
- Long battery life, uses 2 each CR123 lithium batteries
- Ergonomically designed molded non-slip rubber grip
- Torques in both clockwise and counterclockwise directions
- Battery saving auto-shutoff after two minutes
- COMPUTORQ 3 remembers last unit and torque setting selected
- Audible tone sounds when set torque value is reached, if the set torque value is exceeded, an alarm tone will sound
- 3 color LED light bar
YELLOW LED indicates approaching desired torque setting
GREEN LED indicates desired torque value is reached
RED LED indicates fastener was overtorqued, loosen and retighten
- When desired torque value is reached, display will hold value and flash for ten seconds
- COMPUTORQ 3 will operate in any of four torque units, foot pounds (ft. lbs.), inch pounds (in. lbs.), newton meter (Nm) or kilogram centimeter (kg. cm.)
- ACCURACY:
± 2% CW of readings from 10% to 100% of full scale
± 3% CCW of readings from 20% to 100% of full scale
- N.I.S.T. traceable certificate of calibration included
Meets or exceeds ASME B107.28 - 2005

Power Tools

A close-up, high-contrast photograph of a power tool, likely an impact wrench, showing its metallic body and adjustment knobs. The lighting is dramatic, highlighting the tool's form against a dark background.

In making our power tools, we observed the fact that not only has it got to be durable and perform well, it is not much good if you are fighting excess weight, vibration and noise. Basing on this, we come up with a whole range of power tools that embrace these qualities and more.

Air

Our impact wrench feature unique twin hammer impact mechanism to deliver more power per blow. Having more vanes in the rotor also helps in delivering more power as well as a smoother power transfer to the impact hammers. The aluminium alloy housing maintains tool toughness and durability. All these are achieved while keeping weight and vibration to a minimum.

Cordless

Heavy duty components combined with strong and lightweight bodies give our cordless tools more power while being light. Ergonomic grips coupled with vibration absorbing features offer a smoother, more comfortable operation. And long lasting high capacity batteries allow you to work longer with less disruption. The result is a compact power tool that is lightweight, balanced and delivers performance you need.

Striking & Cutting

When it comes to striking tools, Blue-Point's lineage stretches back to 1940 when the company first produced punches and chisels that managed to penetrate and cut through quarter-inch steel. That was a remarkable achievement then.

The range today includes other selection of tools for various striking and cutting applications, bearing the same trademark hardness and toughness. Our wide range of superior hammers and cutting tools set us apart from the competition.

Packing: 1

MAGWRENCH

Order NO.: 902022

- Industrial strength magnets keep it secured to a metal surface
- Holds tools for quick and easy access
- Chrome plated steel bar with chrome plated nylon ends
- Overall size is 20" (with approximately 12" of magnetic holding space)

Blow Gun

Packing: 1

YA105020

Order NO.: 902001

- 20" bent nozzle
- Trigger provides variable air flow control
- Lightweight body with ergonomically designed grip provides comfort and control
- Insulated handle prevents cold hands
- Venturi tip directs air sideways if tip end is obstructed
- Reinforced 1/4"-18NPT inlet
- Maximum air pressure: 232 PSI (16 BAR)

Blow Gun

Packing: 1

YA1055B

Order NO.: 902002

- Variable flow trigger offers precise air flow control
- Six-outlet "star tip" delivers an even distribution of air
- 4" Full Flow tube
- Ergonomic handle design for increased comfort
- Complies with OSHA safety standards
- Air Inlet: 1/4" NPT
- Maximum Working Pressure: 175 PSI (12 bar)
- Vented Tip
- Triggers regulate airflow from partial to full line pressure
- Valve has no cutoff and no restrictions
- Each tip is side vented
- Each gun includes hanging hook and paddle-type air control lever

Automatic Meter

Packing: 1

MT454C

Order NO.: 903043

- The MT454C is a durable, easy to use compact size digital multimeter
- Include:
- Compact size fits comfortably in the palm of your hand
- Easy-to-read 4000 count digital display
- Automatically selects the correct function of DC Volts, AC Volts or Ohms (Resistance)
- Use DC Voltage ranges to verify that the proper voltage level is arriving at a sensor or circuit
- Measure ohms to determine resistance of a coil
- Also test resistance of fuses, fusible links, components and circuits
- Measure AC voltage signals on digital MAF sensors, wheel speed sensors and vehicle speed sensors
- Protective boot with tilt stand, test leads, battery and instruction manual included
- Five year limited warranty

Meter Manual Ranging

Packing: 1

MT501C

Order NO.: 903042

- Ergonomic, compact size fits comfortably in the palm of the hand
- Measure Ohms to determine resistance of a coil or spark plug wire
- Also test continuity of fuses, fusible links, components and circuits
- Use DC voltage ranges to verify proper voltage level is arriving at a sensor or circuit
- Large, easy-to-read, 2000 count LCD display
- Lock readings on display with data hold
- Measure AC voltage signals on digital MAF sensors plus wheel and vehicle speed sensors
- Added protection against drops and the elements with included rubber boot
- Safety cULus 3111 Listed. Meets CE and IEC 1010 safety standards
- 5 year limited warranty

Meter Autoranging

Packing: 1

MT574C

Order NO.: 903002

- The MT574C offers both automatic and manual ranging
- Measure Ohms to determine resistance of a coil or spark plug wire
- Use the diode function to test the diode pack on a typical alternator
- Use DC voltage ranges to verify proper voltage level is arriving at a sensor or circuit
- Large, easy-to-read, 4000 count LCD display with low battery indication
- Lock readings on display with data hold
- Measure AC voltage signals on digital MAF sensors plus wheel and vehicle speed sensors
- Measure DC current to determine presence of a parasitic load
- Added protection against drops and the elements with included rubber boot
- Safety cULus 3111 Listed. Meets CE and IEC 1010 safety standards
- 5 year limited warranty

5 Pin Trailer Light Tester

 Packing: 1

TLT5

Order NO.: 903047

- Easily locates electrical problems in the tow vehicle
- Checks both 4 and 5 pin flat trailer connectors with LED indicator lights
- Tests left and right signals, brake lights and running lights
- Unique and durable design allows user to leave the tester in line to continuously monitor the lighting system on the tow vehicle

Trailer Circuit

 Packing: 1

TLT7

Order NO.: 903049

- Easily locates electrical problems in the tow vehicle
- Checks 7 pin round trailer connectors with LED indicator lights
- Tests left and right signals, brake lights and running lights
- Applications include newer light trucks and SUV's

6 Pin Trailer Light Tester

 Packing: 1

TLT6

Order NO.: 903048

- Easily locates electrical problems in the tow vehicle
- Checks 6 pin round trailer connectors with LED indicator lights
- Tests left and right signals, brake lights and running lights

3 Way Trailer Adaptor

 Packing: 1

TLT8000

Order NO.: 903050

- Applications include medium/light duty trucks, 1/2 ton, 3/4 ton and 1 ton pickups, campers, and other heavy duty applications
- Adapts 7 way connection to 6 round pin and 4/5 pin connections
- Sealed plugs to keep road debris from corroding connections
- One adaptor for all your trailer needs
- Made from strong nylon 6
- Winged grip for easy installation and removal

Dual 12V Trailer Plug Adaptor

 Packing: 1

TLT8003

Order NO.: 903051

- Converts 12 volt feed at the back of a truck or SUV trailer socket and to a dual 12 volt power outlet
- Powers 12 volt test equipment, charging equipment and work lights in shop environment
- Recreation purposes such as running air pumps, radios or TV's while tailgating and camping
- Dual 12 volt power supply sockets
- Plugs into any 7-way spade pin trailer connection
- Use as 12 volt feed for diagnostic equipment
- Convenient power source for accessory plug-ins
- Both shop and recreational uses
- Includes dust cover to help prevent corrosion

Gas Cap Adaptor

 Packing: 1

- With 12VDC 15A cigarette lighter socket
- Automatic circuit overload protection
- 100% Copper 4GA Heavy Duty Jump Cable

Master Plus Disconnect Set

Packing: 1

LDT14

Order NO.: 903006

- LDT14 contains all tools from the popular LDT8, Master Disconnect Set; in addition the kit has:
 - The two most popular Jiffy-tite Disconnect tools
 - The new blue 5/16" fuel line adapter
 - A set of 4 air line push-pull disconnect tools that work on heavy duty trucks and industrial applications
 - Label inside cover of carrying case shows images and applications

Master Line Disconnect Set

Packing: 1

LDT8

Order NO.: 903059

- A complete set of disconnect tools for spring lock and quick disconnect couplings used on air conditioning and fuel lines on Ford, GM and Chrysler vehicles
- Includes a set of six standard disconnect tools (5/16", 3/8", 1/2", 5/8", 3/4" and 7/8") and six color coded, angled disconnect tools for use in tight spots
- **SPECIALIZED GM APPLICATIONS:**
 - Includes tools for use on GM 3/8" flex fuel capable fuel filter removal plus 5/16" and 3/8" GM fuel modules
- **SPECIALIZED FORD APPLICATIONS:**
 - Includes tools for use on 3/8" and 1/2" Ford transmission and cooler lines with stepped line plus 5/16" x 3/8" scissor disconnect and Ford coupler disconnect tools

Battery System Tester

Packing: 1

YA2612B

Order NO.: 903061

- No conversion tables needed for CCA, SAE, IEC, EN, or Ah
- Battery condition is shown in % of capacity
- Uses conductance technology
- Tests 12V starting/charging systems
- Tests both flooded lead acid and AGM batteries
- Multi-colored bar graph displays battery condition
- Low voltage indicator LED lights when charging is necessary
- Bad cell is detected and displayed
- Comfortable grip with easy to use clamps
- Tests discharged batteries
- Patented circuitry
- Reverse polarity protection
- Made in USA
